GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: Nyce, Jonathan W.
TITLE OF INVENTION: COMPOSITION, FORMULATIONS & METHOD FOR PREVENTION
& TREATMENT OF DISEASES & CONDITIONS ASSOCIATED WITH
BRONCHOCONSTRICTION, ALLERGY(IES) & INFLAMMATION
                                                                                                                                                                                                                                                                                                                                                       ö
                                                                                                                                                                                                                                                                                                                                                       Gaps
                                                                                                                                                                                                                                                                                                                                                       ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      ZIP: 08512

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Sequence 737, Application US/10758451

Sequence 737, Application No. US20050014711A1

GENERAL INFORMATION: US20050014711A1

GENERAL INFORMATION: US20050014711A1

APPLICANT: East Carolina University

TITLE OF INVENTION: COMPOSITION, FORWILLATION & METHOD FOR PREVENTION & TREATMENT OF D

TITLE OF INVENTION: AND CONDITIONS ASSOCIATED WITH BRONCHOCONSTRICTION, ALLERGY (IES)

TITLE OF INVENTION: INFLAMMATION

FILE REFERENCE: 30775-706.301

CURRENT APPLICATION NUMBER: US/10/758,451

CURRENT FILING DATE: 2004-01-14

FRIOR APPLICATION NUMBER: 09/093,972

PRIOR FILING DATE: 1998-06-09

NUMBER OF SEQ ID NOS: 996

SEMENAL INFORMATION:

APPLICANT: East Carolina University

APPLICANT: East Carolina University

TITLE OF INVENTION: COMPOSITION, PORMULATION & METHOD FOR PREVENTION & TREATMENT OF INTITLE OF INVENTION: INPLAMMATION ASSOCIATED WITH BRONCHOCONSTRICTION, ALLERGY (IES)

TITLE OF INVENTION: INPLAMMATION SET IN UNBER: US/10/758,451

CURRENT APPLICATION NUMBER: US/10/758,451

CURRENT FILING DATE: 1998-06-09

PRIOR APPLICATION NUMBER: 09/093,972

PRIOR FILING DATE: 1998-06-09

GENERAL INFORMATION:
APPLICANT: Sirna Therapeutics, Inc.
APPLICANT: Richards, Ivan
APPLICANT: Richards, Ivan
APPLICANT: Richards, Ivan
APPLICANT: Interference Mediated Inhibition Of Vascular Endothelial
TITLE OF INVENTION: Growth Factor And Vascular Endothelial Growth Factor Receptor
TITLE OF INVENTION: Gene Expression Using Short Interfering Nucleic Acid (siNA)
FILE REPRENCE: 400/236 (MBHB02-742-U)
CURRENT APPLICATION NUMBER: US/10/962,898
CURRENT FILING DATE: 2004-10-12
                                                                                                                                                                                                                                                                                                                                                                     ö
